

The new suite of HiMASS products is now available!

**HiMASS Modeler** provides:

- Visual Modeling of Complex Hierarchical Models
- Data Collection and Parameterization at Any Level
- Reuse of Any Model Element
- Powerful Experimental Frames for Dynamic Model Conditions

**HiMASS Engine** provides:

- Cross-Platform, High-Performance Functionality with Optimized Java Code
- Entirely Driven by XML (e.g., as Web Service)
- Remote Model Element Libraries

**See our presentation on Monday at 2:30** in the *Modeling Methodology B* track.
